Which I don't recall happening with Charlton Heston and Yule Brenner. I bought Joanah and The Whale and my 5 year old asked me to read it over and over- he loved it. So I went to look for more Lego Bible story books. I also purchased Noahs Ark- which was fine. This one, not so much. Let me just say, I let my 5 year old watch the whole Star Wars saga- there is no blood in that (Not that that is my litmus test) There's no blood in Jurassic Park, in this book- blood everywhere. "Moses says go kill your friends, your neighbors and brothers" and then there is a massacre. It's as if the point of this Author was to scare kids to death and turn them away from this cruel God. What's next for Brendan Powell Smith- The Brick 9/11 Story? I returned this purchase immediatly.0 of 0 people found the following review helpful. For example Thou shall not commit adultery a lego man and woman smiling in bed together and the next page they were shown hanging. Many pictures showing "God" killing people (stabbing, beheading and then a pool of red lego blood). Disturbing on many levels for us.2 of 2 people found the following review helpful. Take it however you want it.By Talon ParkI find it hilarious. I especially love the ten commandments section with various lego's being murdered for things like disobeying their parents. Very true to the actual Bible.

In the beginning, there was The Brick Testament: Stories from the Book of Genesis. And it was good. Then Brendan Powell Smith created The Story of Christmas. And it was even better. Now, just in time for Passover and Easter celebrations, Smith bring us the story of The Ten Commandments. With verses from the book of Exodus and a series of elaborate LEGO dioramas, this full-color volume chronicles the adventures of Moses from the burning bush and the

parting of the Red Sea to Mount Sinai and the Ark of the Covenant.
