**David Woodroffe : The Brilliant Dot-to-Dot Book for Grown Ups** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Brilliant Dot-to-Dot Book for Grown Ups:

11 of 11 people found the following review helpful. Try to do just one!!By Maria E. ScottThis product is habit forming-fun to do. Since I have an essential tremor in my hands this is a good workout therapy for me.9 of 9 people found the following review helpful. I think you either love to do them or you don't like themBy Carol R.Nothing much to say about Dot to Dot. I think you either love to do them or you don't like them. I have always liked to do Dot to Dot and now that I am a Senior Citizen I really enjoy sitting comfy and doing connecting the dots. Have a good pencil and eraser and ruler and good lighting and enjoy yourself, I do.3 of 3 people found the following review helpful. Faint print, too close together, not enough dots to suit me.By Ruth N.Great variety. Wish it were spiral - will have the spine cut off at a print shop soon. No two page ones, and most only up to or including 300 some dots - have done 1600 dots and love those - they can take a few days hit and miss to do. Wish the dots and numbers were bolded to see more easily - very faint and some are much too close to one another, so use a pencil. Likely will not buy from this author

again, but it's OK.

Packed with more than 250 intriguing pictures for you to reveal, this book promises hours of enjoyment. A minimum of 300 dots per image mean that you will never be absolutely sure what will unfold before your eyes. There is a wide range of themes, including famous landmarks, iconic buildings, the British royal family, works of art, classic planes, boats and planes and scenes from history and the animal world. The sense of achievement and well-being to be gained from completing these wonderful images is immense, and once the dots have been joined there is also scope for coloring them in.

About the Author David Woodroffe is an experienced freelance illustrator and paper engineer who has contributed artwork to a wide range of media companies over the past 30 years, from magazine and book publishers to advertising agencies.
