Derf : The City before purchasing it in order to gage whether or not it would be worth my time, and all praised The City:

A humane, funny look at our world.By Roger FreedGet over the grotesqueness of the cartoons and you have a very humane, heartfull, insightful look at our America and our world.0 of 1 people found the following review helpful. The CityBy Max CannonThis book is a genuinely hilarious, biting collection of "The City" cartoons that left me wishing the book were packed with even more of Derf's distinctive and blisteringly funny strips. Hopefully, it will be followed (soon) by another "City" collection. Derf has long been one of the brightest stars in the alt-comics field, and his work is absolutely unique. If you can afford it, you should also check out his full-length comic opuses, "Trashed" and "My Friend Dahmer," which are truly amazing works of narrative and visual storytelling.

Collection of The City, a social/political humor strip.
