mentions of drinking and sex and other things that college students absolutely do but might not want to tell their parents. Not all of the ideas are applicable to every school—for instance, tailgating is way more fun at a big sports school than a tiny school with no football team—but almost every student should be able to find fun activities and helpful reminders. It did make me want to go back to school. ? Different items will ring true for different people. You absolutely should check out where to eat at 2 in the morning, but should NOT print lyrics of your school fight song to give to strangers, in my opinion. But I'm more into food than school spirit. This book is a good graduation gift from a friend or aunt/uncle, etc., and will almost definitely be way more useful than a dictionary, the traditional gift in my family. If you take it as a guide and not as law, it will remind you to do things other than study, and make some good memories during the exciting years of college. 1 of 1 people found the following review helpful. Reading it felt like reading into the thoughts of my best friend. By Danie This book is absolutely AMAAAAZING. Reading it felt like reading into the thoughts of my best friend. I felt connected to my real life, my real friends and my real thoughts every step of the way. This college bucket list is the perfect book for anyone with someone in college or getting ready for college - it really covers the basics and makes sure that you have the best time at something as simple as a college sport. I love the reminder of not only taking pictures but printing and framing them. At a time in our lives when most of our moments are documented through social media, there's something special about print photos. I loved the reminder and think that everyone needs that. What I liked about this book was that the items on this list are all attainable, it's not a list full of things that the ordinary gal (or guy) can't achieve, they're all made for you and me to conquer and it the things on this list can and should change the course of your life. While we may not all go out and organize a protest, getting engaged and involved rather than sitting quite is the type of impact that has shifted my perspective on life. I can't get enough of the bucket list. 1 of 1 people found the following review helpful. ... hard to find advice books for college that aren't horribly negative? College can be an intense. By Xan. Belzley Why is it so hard to find advice books for college that aren't horribly negative? College can be an intense, absurd, funny, heartbreaking time, and making the most of it involves taking risks. What I love about this book is it helps to normalize the crazy experiences that students have in college so that they feel encouraged to try new things, not shamed for normal college behavior. This definitely isn't a book to give your kid-- one suggestion is "have a one night stand"--but I do recommend it for a younger person of your own generation. I got it for my best friend's little sister. I do think you should preface this book with "don't do anything that makes you feel unsafe"--again, one night stand under the "things you won't regret" chapter is sort of debatable. But I think it's an excellent, compassionate guide to making the most of the four(ish) years. It even offers some great advice academically (OFFICE HOURS! Best thing ever). All in all, a great buy.

**THE IDEAL GIFT FOR HIGH SCHOOL GRADUATES AND COLLEGE FRESHMEN, THIS BOOK IS PERFECT FOR STUDENTS LOOKING TO MAKE MEMORIES AND GRADUATE WITHOUT REGRETS!** Are you ready to experience the best four years of your life? During her four and a half years of college, she made the dean's list, wrote for her school newspaper, joined clubs, memorized weekly drink specials around town, and maybe did a keg stand or two. In addition to earning her bachelor's degree in news-editorial journalism, Kourtney also earned a degree in how to hold her liquor, thanks to the dozen-plus bars within walking distance of the California State University, Chico campus. Since graduating in 2007, she has moved to NYC twice, authored four books, traveled to Europe three times, and married the love of her life in California and again in Turkey. She writes about celebrities and entertainment for Metro US, GossipGirl.com, and YourTango.com. She currently lives in Jersey City, New Jersey.
