R. G. Fredericks : The Complete Guide to Republican Ethics before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Guide to Republican Ethics:

0 of 0 people found the following review helpful. I suppose Satan could have written it better, but this is as good as a decent ...By Joy BI suppose Satan could have written it better, but this is as good as a decent human being can describe republican ethics.Disclaimer: I read this book without buying. If anyone is paying for this or that other book just to spite the other side, they are suckers who are being used. One can totally see why the other book has so much more

success: bunch of hardline trash who got brainwashed by kock brothers (and other 1%) will buy anything they are told to. 1% says, "we are 53%", and they believe it? Even my labrador knows better. 2 of 3 people found the following review helpful. Never before has a writer captured such an important subject ...By Steve Leonard Never before has a writer captured such an important subject in so few words. Never before has essential reading been such a quick read. Author R.G. Fredericks' incisive take on the Republican Party's moral compass — or lack thereof — makes him a strong contender for a Pulitzer. On a practical level, the blank pages will give readers ample space to record their thoughts over the next four years as to why Trumpistan is a huuuuuge disaster. IMHO, sane Americans will be big losers if they don't get this book! 0 of 0 people found the following review helpful. A fun, very easy to read book By Doris Dent A fun, very easy to read book! Great for that "favorite" uncle or brother in-law. Lots of room for note-taking and strategizing.

The Complete Guide To Republican Ethics is a blank book because it's perfectly clear that Republicans no longer have any ethics. (See Trump, Donald; Ryan, Paul; McConnell, Mitch for starters.) Perfect as a personal diary to express how you really feel about Republicans or send copies -- anonymously** -- to your crazy uncles, Republican friends and Republican representatives and imagine their heads exploding.** You can send both print and Kindle books as anonymous gifts through Amazon.
